

This safety data sheet was created pursuant to the requirements of:  
UK REACH Regulations (SI 2019/758 as amended)

**Supersedes date** 07-Feb-2018

**Revision date** 23-Jul-2024

**Revision Number** 3

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

|                                 |                                     |
|---------------------------------|-------------------------------------|
| <b>Product Code(s)</b>          | 13209                               |
| <b>Safety data sheet number</b> | 13209                               |
| <b>Product Name</b>             | DOWSIL EP-9215 COSMETIC POWDER      |
| <b>CAS No</b>                   | 869736-22-1                         |
| <b>Synonyms</b>                 | DOW CORNING EP-9215 COSMETIC POWDER |
| <b>Pure substance/mixture</b>   | Substance                           |

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

|                        |           |
|------------------------|-----------|
| <b>Recommended use</b> | Cosmetics |
|------------------------|-----------|

### 1.3. Details of the supplier of the safety data sheet

#### Supplier

Univar Solutions UK Ltd  
Aquarius House  
6 Mid Point Business Park  
Bradford  
GBR

For further information, please contact

|                                       |                                   |
|---------------------------------------|-----------------------------------|
| <b>E-mail address</b>                 | SDS.EMEA@univarsolutions.com      |
| <b>Non-Emergency Telephone Number</b> | +44 1274 267300 / +44 1274 267306 |

### 1.4. Emergency telephone number

|                            |                                |
|----------------------------|--------------------------------|
| <b>Emergency Telephone</b> | SGS - +32 (0)3 575 55 55 (24h) |
|----------------------------|--------------------------------|

## SECTION 2: Hazards identification

### 2.1. Classification of the substance or mixture

Not classified

### 2.2. Label elements

Not classified

**Hazard statements**

Not classified

**2.3. Other hazards**

Dust contact with the eyes can lead to mechanical irritation. Contact with dust can cause mechanical irritation or drying of the skin. May form combustible dust concentrations in air.

**SECTION 3: Composition/information on ingredients****3.1 Substances**

| Chemical name                           | Weight-% | EC No (EU Index No) | UK REACH registration number | Classification according to GB CLP (SI 2020/1567 as amended) | Specific concentration limit (SCL) | M-Factor | M-Factor (long-term) |
|-----------------------------------------|----------|---------------------|------------------------------|--------------------------------------------------------------|------------------------------------|----------|----------------------|
| DIMETHYL SILOXANE ELASTOMER 869736-22-1 | <= 100%  | -                   | -                            | -                                                            | -                                  | -        | -                    |

**Full text of H- and EUH-phrases: see section 16**

This product does not contain candidate substances of very high concern at a concentration  $\geq 0.1\%$  (UK REACH Article 59)

**SECTION 4: First aid measures****4.1. Description of first aid measures**

|                       |                                                                                                                                                                                                       |
|-----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General advice</b> | Use personal protection recommended in Section 8.                                                                                                                                                     |
| <b>Inhalation</b>     | IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. Rinse mouth thoroughly with water. Get medical attention if symptoms occur.                                 |
| <b>Eye contact</b>    | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if symptoms occur. |
| <b>Skin contact</b>   | IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Get medical attention if symptoms occur.                                                   |
| <b>Ingestion</b>      | Rinse mouth thoroughly with water. Do NOT induce vomiting. Get medical attention if symptoms occur.                                                                                                   |

**4.2. Most important symptoms and effects, both acute and delayed**

|             |                                                                                                        |
|-------------|--------------------------------------------------------------------------------------------------------|
| <b>Eyes</b> | May cause slight eye irritation. Solid particles trapped behind the eyelid may cause abrasive damage,. |
|-------------|--------------------------------------------------------------------------------------------------------|

**4.3. Indication of any immediate medical attention and special treatment needed**

Note to doctors Treat symptomatically.

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

**Suitable Extinguishing Media** Dry chemical, CO2, alcohol-resistant foam or water spray.

**Large Fire** CAUTION: Use of water spray when fighting fire may be inefficient.

**Unsuitable extinguishing media** Do not scatter spilled material with high pressure water streams.

### 5.2. Special hazards arising from the substance or mixture

**Specific hazards arising from the chemical** When heated and in case of fire, toxic vapours/gases may be formed. Pneumatic conveying and other mechanical handling operations can generate combustible dust. To reduce the potential for dust explosions, electrically bond and ground equipment and do not permit dust to accumulate. Dust can be ignited by static discharge. Dust can form an explosive mixture with air.

**Hazardous combustion products** Carbon oxides. Silicon oxides. Formaldehyde.

### 5.3. Advice for firefighters

**Special protective equipment and precautions for fire-fighters** Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

**Personal precautions** Ensure adequate ventilation. Use personal protection recommended in Section 8. Avoid contact with eyes, skin and clothing. Avoid breathing dust.

**For emergency responders** Use personal protection recommended in Section 8.

### 6.2. Environmental precautions

**Environmental precautions** See Section 12 for additional Ecological Information.

### 6.3. Methods and material for containment and cleaning up

**Methods for containment** Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up** Avoid generation of dust. Remove spillage with vacuum cleaner. If not possible, collect spillage with shovel, broom or the like. Take up mechanically, placing in appropriate containers for disposal. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration.

**Prevention of secondary hazards** Clean contaminated objects and areas thoroughly observing environmental regulations.

### 6.4. Reference to other sections

**Reference to other sections** See section 8 for more information. See section 13 for more information.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

#### **Advice on safe handling**

Ensure adequate ventilation. Use personal protection recommended in Section 8. Avoid contact with eyes, skin and clothing. Do not breathe dust. Avoid generation of dust. Keep container closed when not in use. Keep away from open flames, hot surfaces and sources of ignition. Take precautionary measures against static discharges. Avoid spilling. Avoid release to the environment. Pneumatic conveying and other mechanical handling operations can generate combustible dust. To reduce the potential for dust explosions, electrically bond and ground equipment and do not permit dust to accumulate. Dust can be ignited by static discharge. Handle in accordance with good industrial hygiene and safety practice. Empty containers retain product residue and can be hazardous. Static electricity may accumulate and ignite suspended dust causing an explosion. Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres.

#### **General hygiene considerations**

Wash hands before breaks and immediately after handling the product.

### 7.2. Conditions for safe storage, including any incompatibilities

#### **Storage Conditions**

Keep container tightly closed in a dry and well-ventilated place. Keep in properly labelled containers. Store away from the following materials. Strong oxidising agents.

### 7.3. Specific end use(s)

#### **Specific use(s)**

See section 1 for more information.

#### **Risk Management Methods (RMM)**

The information required is contained in this Safety Data Sheet.

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

#### **Exposure Limits**

This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.

#### **Biological occupational exposure limits**

This product, as supplied, does not contain any hazardous materials with biological limits established by the region specific regulatory bodies.

**Derived No Effect Level (DNEL) - Workers** No information available

**Derived No Effect Level (DNEL) - General Public** No information available.

**Predicted No Effect Concentration (PNEC)** No information available.

### 8.2. Exposure controls

#### **Engineering controls**

No information available.

#### **Personal protective equipment**

#### **Eye/face protection**

Wear safety glasses with side shields (or goggles). Use eye protection according to EN 166.

|                                 |                                                                                                                                                                          |
|---------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Hand protection</b>          | Wear suitable gloves. Gloves must conform to standard EN 374.                                                                                                            |
| <b>Skin and body protection</b> | No special protective equipment required.                                                                                                                                |
| <b>Respiratory protection</b>   | No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, ventilation and evacuation may be required. |

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

|                        |                          |
|------------------------|--------------------------|
| <b>Physical state</b>  | Solid                    |
| <b>Appearance</b>      | Dusty powder             |
| <b>Colour</b>          | white                    |
| <b>Odour</b>           | Slight.                  |
| <b>Odour threshold</b> | No information available |

| <u>Property</u>                                | <u>Values</u>                                              | <u>Remarks • Method</u>       |
|------------------------------------------------|------------------------------------------------------------|-------------------------------|
| <b>Melting point / freezing point</b>          |                                                            | Not determined.               |
| <b>Initial boiling point and boiling range</b> |                                                            | Not applicable.               |
| <b>Flammability</b>                            |                                                            | The product is not flammable. |
| <b>Flammability Limit in Air</b>               |                                                            | No information available.     |
| Upper flammability or explosive limits         |                                                            |                               |
| Lower flammability or explosive limits         |                                                            |                               |
| <b>Flash point</b>                             |                                                            | Not applicable.               |
| <b>Autoignition temperature</b>                |                                                            | No information available.     |
| <b>Decomposition temperature</b>               | > 300 °C                                                   |                               |
| <b>pH</b>                                      |                                                            | Not applicable.               |
| pH (as aqueous solution)                       |                                                            | No information available.     |
| <b>Kinematic viscosity</b>                     |                                                            | Not applicable.               |
| Dynamic viscosity                              |                                                            | Not applicable.               |
| <b>Water solubility</b>                        |                                                            | Not determined.               |
| <b>Solubility(ies)</b>                         |                                                            | No information available.     |
| <b>Partition coefficient</b>                   |                                                            | Not determined.               |
| <b>Vapour pressure</b>                         |                                                            | Not applicable.               |
| <b>Relative density</b>                        | 0.98                                                       |                               |
| Bulk density                                   |                                                            | No information available      |
| Liquid Density                                 | No information available                                   | No information available      |
| <b>Relative vapour density</b>                 |                                                            | No information available.     |
| <b>Particle characteristics</b>                |                                                            | No information available.     |
| Particle Size                                  | No information available                                   |                               |
| Particle Size Distribution                     | No information available                                   |                               |
| <b>Explosive properties</b>                    | Not considered to be explosive.                            |                               |
| <b>Oxidising properties</b>                    | Does not meet the criteria for classification as oxidising |                               |

### 9.2. Other information

|                         |                |
|-------------------------|----------------|
| <b>Evaporation rate</b> | Not applicable |
|-------------------------|----------------|

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

**Reactivity** No known effects under normal use conditions.

#### 10.2. Chemical stability

**Stability** Stable under normal conditions.

#### **Explosion data**

**Sensitivity to mechanical impact** None.

**Sensitivity to static discharge** None.

#### 10.3. Possibility of hazardous reactions

**Possibility of hazardous reactions** The following materials may react with the product:. Strong oxidising agents.

#### 10.4. Conditions to avoid

**Conditions to avoid** Avoid static discharge.

#### 10.5. Incompatible materials

**Incompatible materials** Strong oxidising agents.

#### 10.6. Hazardous decomposition products

**Hazardous decomposition products** Carbon oxides. Silicon oxides. Formaldehyde.

### **SECTION 11: Toxicological information**

#### 11.1. Information on toxicological effects

##### Information on likely routes of exposure

##### **Product Information**

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight eye irritation. Solid particles trapped behind the eyelid may cause abrasive damage,.

**Skin contact** Non-irritating during normal use.

**Ingestion** May cause discomfort if swallowed.

##### Symptoms related to the physical, chemical and toxicological characteristics

**Symptoms** No information available.

##### Acute toxicity

##### **Numerical measures of toxicity**

No information available

**Oral LD50** Oral LD50 > 5000 mg/kg

**Dermal LD50** Dermal LD50 > 2000 mg/kg

##### Delayed and immediate effects as well as chronic effects from short and long-term exposure

**Skin corrosion/irritation** Non-irritating during normal use.

|                                   |                                                                                                        |
|-----------------------------------|--------------------------------------------------------------------------------------------------------|
| Serious eye damage/eye irritation | May cause slight eye irritation. Solid particles trapped behind the eyelid may cause abrasive damage,. |
| Respiratory or skin sensitisation | No information available.                                                                              |
| Germ cell mutagenicity            | No information available.                                                                              |
| Carcinogenicity                   | No information available.                                                                              |
| Reproductive toxicity             | No information available.                                                                              |
| STOT - single exposure            | No information available.                                                                              |
| STOT - repeated exposure          | No information available.                                                                              |
| Aspiration hazard                 | Based on available data the classification criteria are not met.                                       |
| Other adverse effects             | No information available.                                                                              |

## SECTION 12: Ecological information

### 12.1. Toxicity

Ecotoxicity The environmental impact of this product has not been fully investigated.

### 12.2. Persistence and degradability

Persistence and degradability No information available.

### 12.3. Bioaccumulative potential

Bioaccumulation There is no data for this product.

### 12.4. Mobility in soil

Mobility in soil No information available.

### 12.5. Results of PBT and vPvB assessment

PBT and vPvB assessment The product does not contain any substance(s) classified as PBT or vPvB.

### 12.6. Other adverse effects

No information available.

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

|                                     |                                                                                                                 |
|-------------------------------------|-----------------------------------------------------------------------------------------------------------------|
| Waste from residues/unused products | Dispose of in accordance with local regulations. Dispose of waste in accordance with environmental legislation. |
| Contaminated packaging              | Do not reuse empty containers.                                                                                  |

## SECTION 14: Transport information

### IATA

|                                   |               |
|-----------------------------------|---------------|
| 14.1 UN number or ID number       | Not regulated |
| 14.2                              |               |
| 14.3 Transport hazard class(es)   | Not regulated |
| 14.4 Packing group                | Not regulated |
| 14.5 Environmental hazards        | No            |
| 14.6 Special precautions for user |               |
| Special Provisions                | None          |

### IMDG

|                                                              |                          |
|--------------------------------------------------------------|--------------------------|
| 14.1 UN number or ID number                                  | Not regulated            |
| 14.3 Transport hazard class(es)                              | Not regulated            |
| 14.4 Packing group                                           | Not regulated            |
| 14.5 Environmental hazards                                   | No                       |
| 14.6 Special precautions for user                            |                          |
| Special Provisions                                           | None                     |
| 14.7 Maritime transport in bulk according to IMO instruments | No information available |

### RID

|                                   |               |
|-----------------------------------|---------------|
| 14.1 UN number or ID number       | Not regulated |
| 14.2 UN proper shipping name      | Not regulated |
| 14.3 Transport hazard class(es)   | Not regulated |
| 14.4 Packing group                | Not regulated |
| 14.5 Environmental hazards        | No            |
| 14.6 Special precautions for user |               |
| Special Provisions                | None          |

### ADR

|                                   |               |
|-----------------------------------|---------------|
| 14.1 UN number or ID number       | Not regulated |
| 14.2 UN proper shipping name      | Not regulated |
| 14.3 Transport hazard class(es)   | Not regulated |
| 14.4 Packing group                | Not regulated |
| 14.5 Environmental hazards        | No            |
| 14.6 Special precautions for user |               |
| Special Provisions                | None          |

## SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### National regulations

#### Authorisations and/or restrictions on use:

This product does not contain substances subject to authorisation (UK REACH - Annex XIV).

This product does not contain substances subject to restriction (UK REACH - Annex XVII).

**Persistent Organic Pollutants**

Not applicable

**Export Notification requirements**

Not applicable

**Named dangerous substances per COMAH Regulations 2015 (as amended)**

Not applicable

**The Ozone-Depleting Substances Regulations 2015**

Not applicable

**The Biocidal Products Regulations 2001 (as amended)**

Not applicable

**The Water Environment (Water Framework Directive) (England and Wales) Regulations 2017 (as amended)**

Not applicable

**Poisons Act 1972 (Explosive Precursors) Regulations (as Amended)**

Not applicable

**International Inventories**

**Classification procedure**

| Classification according to Regulation (EC) No. 1272/2008 [CLP] | Method Used        |
|-----------------------------------------------------------------|--------------------|
| Acute oral toxicity                                             | Calculation method |
| Acute dermal toxicity                                           | Calculation method |
| Acute inhalation toxicity - gas                                 | Calculation method |
| Acute inhalation toxicity - vapour                              | Calculation method |
| Acute inhalation toxicity - dust/mist                           | Calculation method |
| Skin corrosion/irritation                                       | Calculation method |
| Serious eye damage/eye irritation                               | Calculation method |
| Respiratory sensitisation                                       | Calculation method |
| Skin sensitisation                                              | Calculation method |
| Mutagenicity                                                    | Calculation method |
| Carcinogenicity                                                 | Calculation method |
| Reproductive toxicity                                           | Calculation method |
| STOT - single exposure                                          | Calculation method |
| STOT - repeated exposure                                        | Calculation method |
| Acute aquatic toxicity                                          | Calculation method |
| Chronic aquatic toxicity                                        | Calculation method |
| Aspiration hazard                                               | Calculation method |
| Ozone                                                           | Calculation method |
